Laser Based Treatments

**Fraxel Laser Resurfacing** – works deep into the dermis to reduce sun damage, improve texture and tone, promote collagen and elasticity and improve acne scarring. It offers positive results of ablative skin resurfacing with minimal downtime.

**Laser Hair Removal** – the Cynosure Apogee 5500 is a gentler, faster and more effective solution to laser hair removal for men and women. The laser disables the follicle during its growth cycle. Multiple treatments are required over successive growth cycles.

**IPL** – Intense Pulsed Light is very effective in improving the appearance of sun damaged skin, rosacea, spider veins and hair removal.

**Iridex Laser** – gentle, safe, effective treatment for removal of vascular and pigmented lesions and spider veins.

The Center also offers **massage therapy**. Our specially trained masseuses help to restore muscle tone, give increased energy, supply regeneration to aging skin and stimulate circulation, as well as deliver a complete feeling of well being.

**Why Choose The Medical Spa at The Center for Plastic Surgery?**

At the Center for Plastic Surgery, we always keep your needs, concerns and welfare very much in sharp focus. You can find comfort in knowing that your treatments are doctor-supervised, are performed using the most advanced products and lasers in the business, and are provided by skilled professionals.

We’ve also worked hard to ensure the process is seamless for you. We understand that the rejuvenation process works best in a serene, relaxed atmosphere. Thus, we’ve developed a truly state-of-the art medical spa where you can find the most advanced and unique treatments under one roof. We offer Saturday hours and can offer flexible business hours.
Take a Well Deserved Break and Invest in Your Personal Appearance...

The Center for Plastic Surgery is pleased to offer a full-time medical spa, offering the most advanced medical skin care treatments, cutting-edge FDA approved lasers and professional grade products.

Our state-of-the-art facility is supervised by four plastic surgeons and two highly-trained licensed aestheticians.

Our commitment is to ensure you receive long-lasting results and dramatically improved skin with little or no downtime.

The Center for Plastic Surgery strives to offer you the pinnacle of personal care and results, while maintaining a comforting and relaxed atmosphere.

Skin Care Treatments

**Diamond-tone Skin Resurfacing Microdermabrasion** – utilizes diamond shaped crystals to gently polish the skin to reveal fresher, younger skin. Ideal for fine lines, wrinkles, hyper pigmentation, acne scarring and uneven skin tones.

**Glycolic Facial Treatment** – utilizes up to 50% glycolic acid which gently dissolves dead cellular debris and deep cleanses pores to reveal younger, smoother skin.

**Salicylic Facial Treatment** – 20% and 30% salicylic peels are suitable for all skin types. Skin that is acne-prone, oily or cystic will benefit from deep pore cleansing and light peeling from this treatment.

**Italian Facial Peel** – a unique 2-step microdermabrasion and peel treatment designed specifically by our physicians, combining microdermabrasion and azalaic, kojic and salicylic acids for the ultimate skin care treatment.

**Obagi Blue Peel** - designed to significantly improve the appearance and health of your skin. Using a low concentration of the chemical trichloroacetic acid (TCA) mixed with a special blue base to slow penetration. The blue peel removes the thin surface layers of aged and damaged skin from the face. These dead cells are replaced by healthier ones, allowing the skin’s own clarity and tightness to resurface.

A series of treatments is recommended.

Relax while waiting for your appointment.
